Where Barrett was standing and where staff said the child attended

> **RESPONSE TO CPCD**
> On October 31st, 2025, at approximately 10:43 hours, I, Detective W. Barrett, badge number 7080, while working at the Safe Passage Child Advocacy Center located at 2335 Robinson St., observed a disturbance occurring across the street at the CPCD (Child Development Center) located at 2330 Robinson St. I observed three individuals pacing in front of the CPCD building. Shortly after, I was notified that one of the individuals, described as a younger male, was attempting to enter the school. Multiple detectives, including myself, responded to the CPCD to address the situation.

> Upon arrival, I made contact with staff members at the CPCD to gather information about the incident. Staff members provided the following account: A meeting had been scheduled with the family of a child who attends the Pike Peak State College Child Development Center, which is affiliated with CPCD.

What the staff told her about the October 31 incident

> During the current incident, staff stated that the father was allowed to attend the meeting, but his behavior became agitated, and he was not permitted to enter the building in that state. Staff also noted the presence of another unidentified male who accompanied the father and grandmother. Staff expressed concerns about the unidentified male's role and stated that they placed the building on lockdown to ensure the safety of staff and children.

This passage records a statement by staff at the Robinson Street office. It supplies no name for the person who ordered a lockdown, no activation or end time, and no October 31 alert from the Pikes Peak State College campus.
