Dr. Shana Lachowicz, speaking with Officer Carlos Espinoza

“had arrived at the facility for a scheduled meeting”

Espinoza attributed those words to Community Partnership for Child Development’s director of child development. He recorded her account that the meeting was intended for the parents and only John was permitted to enter that day.

What was supposed to happen at the office?

The family’s chronology dates the scheduling call to October 30 and describes Whitney and John Wingo discussing a 10 a.m. meeting the next day. The call recording is retained in the CPCD archive. John says he went to obtain records. Neither quoted passage says the records were ready for pickup.
